ACKNOWLEDGEMENTS

At Atherton Press—with the author’s guidance—graphics editor Charlotte Rivers did most of the computer work on maps and illustrations and overall book design and assisted the work of final book assembly. Andrew Federle researched religious history (but does not necessarily endorse the author’s conclusions), prepared and corrected reading lists, and did some copy-editing and trouble shooting. Federle and David Nielsen did the web research. Assistant editor David Nielsen critiqued the manuscript, did final preparation of reading lists, did library work, and did final copy-editing and indexing.

John Hord of Tampa, Florida supplied extensive editorial comments on the first six and last two chapters. Final editorial decisions were made by the author. Retired geography professor Laurence Granbow Wolf of Cincinnati drew some of the maps, as indicated in their captions. The late Tyrell T. Gilb was supportive at every stage of the enterprise. Typemasters, California helped with final preparation of the manuscript for printing.

ABOUT THE AUTHOR

CORINNE LATHROP GILB, whose Ph.D. degree was from Harvard/Radcliffe, taught urban history and related courses in California and Michigan universities for 36 years and has authored two previous books and numerous other publications. Her book, *Toward Holistic History*, describes the how and why of her interdisciplinary approach to history. In addition to a lifetime of scholarship, her practical experience has included, among other endeavors, two years as a consultant to the California legislature and six years as director of the planning department of one of the largest American cities. Her extensive travels to more than ninety countries have taken her to archaeological and historical sites throughout the world. Trained in Latin, French, German, Russian and Mandarin Chinese, she has lectured in China, Japan, Singapore; England, Ireland, France, Greece; Canada and Latin America. She is a member of a number of scholarly societies, served for fifteen years on the governing board of the International Society for the Comparative Study of Civilizations, and served a term as the society's first vice-president.
